

Center for Climate Integrity

Pennsylvania Statewide

July 6-13, 2023

Base Sample MOE +/- 4.9%

400 2024 Likely Voters (800 Unweighted)

40 Allegheny County Respondents (241 Unweighted)

48 Philadelphia Respondents (255 Unweighted)

Q.2 Are you registered to vote?

	Total	Allegheny	Philly
Yes	100	100	100
No	-	-	-
Not sure	-	-	-
(ref:SCREEN1)			

Q.8 It's a long way off, but in November of 2024, there will be an election for President, U.S. Senate, Congress and other offices. What are the chances of your voting in the November 2024 election: are you almost certain to vote, will you probably vote, are the chances 50-50, or don't you think you will vote?

	Total	Allegheny	Philly
Almost certain	87	90	83
Probably	9	6	7
50-50	4	5	9
Will not vote	-	-	-
Not sure	-	-	-
(ref:WILLVOTE)			

Q.9 Generally speaking, do you think that things in your part of Pennsylvania are going in the right direction, or do you think things have gotten pretty seriously off on the wrong track?

	Total	Allegheny	Philly
Right direction	42	48	38
Wrong track	58	51	62
Not sure	0	-
Right - Wrong	-15	-3	-25
(ref:DIRECT)			

Q.10 Please rate your feelings toward each of the people, terms, and organizations below: do you feel very favorable toward them, somewhat favorable, somewhat unfavorable, or very unfavorable? If you have no opinion or have never heard of that person, term, or organization please check that box.

Q.39 An upcoming report shows local governments across Pennsylvania will face more than \$15 billion in costs by 2040 to protect their infrastructure and residents from climate change effects such as worsening floods and extreme heat.) Now you will read what some people might say who SUPPORT suing oil and gas companies to require them to pay for rebuilding and preventing further damage to infrastructure due to climate change. After each statement, indicate whether the statement is a very convincing reason to support suing oil and gas companies, a somewhat convincing reason, a not so convincing reason, or a not at all convincing reason.

	Very Conv	Smwt Conv	Not So Conv	Not at All Conv	Not Sure	Very/Smwt Conv	Total Not Conv
39 (LIARS) Major oil and gas companies have known for decades that their products could cause "potentially catastrophic" climate change. Exxon scientists even predicted how much climate change fossil fuels would cause with startling accuracy. But instead of sounding the alarm and leading the transition to cleaner energy, the fossil fuel industry launched a multi-billion dollar, decades-long campaign to lie to the public about climate change to block action. These same companies continue to pollute, profit, and lie about their role in the climate crisis today.	38	37	15	10	0	76	24
Allegheny County	38	34	14	13	1	72	27
Philadelphia	47	31	14	8	-	78	22

43 (HEALTH) Big corporations make climate change worse by polluting the air we breathe and water we drink. This pollution has made Western Pennsylvania's air quality the worst in the nation, leading to increased rates of asthma, cancer and other diseases. Now, the effects of climate change they cause are bringing wildfire smoke down to Pennsylvania, making the air quality in Pennsylvania even worse. We need to hold polluters accountable for their role in increased rates of disease and medical conditions.	37	37	17	10	0	73	27
Allegheny County	40	30	15	13	1	70	29
Philadelphia	47	33	12	8	-	80	20

	Very Conv	Smwt Conv	Not So Conv	Not at All Conv	Not Sure	Very/Smwt	Total Not Conv
42 (PROPERTY TAXES) Pennsylvania schools will need expensive upgrades to lessen the impacts of climate change. Some districts already say they will need more than a hundred million dollars to upgrade buildings so they have air conditioning and avoid "heat days" where students are sent home. If we don't require oil and gas companies to pay their fair share, school districts will be forced to raise property taxes to pay for these necessary upgrades.	28	38	22	12	0	66	34
Allegheny County	25	30	27	17	1	55	44
Philadelphia	41	34	17	9	-	75	25

41 (SUCCESS) Dozens of states and cities across the country are taking Exxon and other Big Oil companies to court to make them pay their fair share for the damages caused by their products and to hold them accountable for their role in climate change. These cases are modeled after successful lawsuits that Pennsylvania and other governments filed to hold tobacco and opioid companies accountable for similarly selling dangerous products but lying to the public about the harm.	27	44	20	9	0	70	30
Allegheny County	29	38	18	14	1	67	32
Philadelphia	37	43	14	6	-	80	20

40 (BIG CORPS) The evidence shows that a relatively small number of major corporations are responsible for the vast majority of carbon pollution that has caused modern-day global warming. According to one non-profit report, fewer than 100 companies, including Exxon, Chevron, Shell, and BP, are responsible for more than 70 percent of the emissions that fuel global warming since 1988.	24	40	24	12	0	64	36
Allegheny County	28	37	20	14	1	65	34
Philadelphia	30	39	20	12	-	69	31

(ref:SUPPSTMT)

Q.44 Now you will read what some people might say who OPPOSE suing oil and gas companies to require them to pay for rebuilding and preventing further damage to infrastructure due to climate change. After each statement, indicate whether the statement is a very convincing reason to support suing oil and gas companies, a somewhat convincing reason, a not so convincing reason, or a not at all convincing reason.

	Very Conv	Smwt Conv	Not So Conv	Not at All Conv	Not Sure	Very/Smwt Conv	Total Not Conv
44 (COSTS) If oil and gas companies are sued for climate change, they will pass on the cost to customers by increasing fees on their energy bills and raising prices at the gas pump.....	38	37	18	7	0	75	25
Allegheny County	34	35	19	11	1	69	30
Philadelphia	31	38	20	11	0	69	31

46 (COLLABORATE) The oil and gas industry is working to advance low-carbon technology that could help address the climate crisis. Instead of trying to score political points, our elected leaders should be working with industry experts and job creators to implement innovative solutions to climate change.....	30	43	21	6	0	72	28
Allegheny County	21	44	24	10	1	65	34
Philadelphia	26	37	20	17	0	63	37

45 (JOBS) Suing oil and gas companies to hold them accountable for the impacts of climate change threatens the jobs of tens of thousands of oil and gas workers in Pennsylvania and hundreds of thousands of jobs in the state that are supported by the natural gas and oil industries. We can't afford to lose those good paying jobs.....	23	43	25	9	0	66	34
Allegheny County	19	38	26	15	1	57	41
Philadelphia	23	36	27	14	0	59	41

47 (FRIVOLOUS) These lawsuits are frivolous and cost taxpayers hundreds of thousands of dollars in court costs. Climate change is a complex issue that is fit for our elected officials in the legislature and congress, not something that should be decided through the courts.	22	30	33	16	0	52	48
Allegheny County	21	29	31	18	1	50	49
Philadelphia	21	32	30	17	0	53	47

(ref:OPPOSESTMT)

Q.47 Now that you have more information, in your opinion, how much should oil and gas companies like ExxonMobil, Chevron, BP, and Shell be required to pay to help local communities in Pennsylvania adapt to climate change, such as protecting infrastructure and residents from climate change effects like flooding and extreme heat?
