

PR2015 Oregon Poll Toplines

CONFIDENTIAL - DATA NOT FOR RELEASE

Methodology

Poll number: pr2015

Interview Dates: August 12 - 18, 2020

Sample Population: 543 registered voters in Oregon.

Sample Selection: Scientific online poll - stratified sample of panel respondents.

Weighting Parameters: The sample was weighted based on the U.S. Census Bureau's Voting and Registration Supplement to the Current Population Survey for registered voters in Oregon based on age, gender, race, and educational attainment.

This topline provides weighted percentages, as well as the unweighted N-size for the total sample. Due to the effects of weighting and rounding, figures may or may not add up to 100%. The standard deviation of the weights was: 0.2076866. The maximum weight was: 1.630384. The minimum weight was: 0.5820868. 95% of the weights were between 0.669508, 1.405056.

Margin of Error: The 95% credibility interval for this survey is +/- 4.3%, which includes the square root of the design effect (DEFT): 1.0213003.

approve...Do you approve or disapprove of the way Donald Trump is handling his job as President?

Response	Percent	N
Strongly approve	24%	125
Somewhat approve	13%	69
Somewhat disapprove	11%	58
Strongly disapprove	49%	269
Not sure	4%	22

rdwt...Generally speaking, would you say that things in this country are headed in the right direction or would you say that things are headed off on the wrong track?

Response	Percent	N
Right direction	23%	121
Wrong track	69%	375
Not sure	8%	47

worried...How worried are you about climate change?

Response	Percent	N
Very responsible	39%	211
Somewhat responsible	33%	183
Not too responsible	11%	54
Not at all responsible	10%	49
Not sure	8%	46

OR8...To what extent do you hold everyday Oregonians responsible for climate change and its associated impacts, including sea level rise, extreme storms, flooding, and more intense and frequent heat waves?

Response	Percent	N
Very responsible	14%	77
Somewhat responsible	45%	247
Not too responsible	22%	119
Not at all responsible	13%	69
Not sure	5%	31

OR9...Do you think oil and gas companies should pay for all, most, some, or none of the costs related to protecting communities from the impacts of climate change in the United States?

Response	Percent	N
Oil and gas companies should pay for all of the costs of protecting communities from the impacts of climate change in the United States.	14%	79
Oil and gas companies should pay for most of the costs of protecting communities from the impacts of climate change in the United States.	30%	164
Oil and gas companies should pay for some of the costs of protecting communities from the impacts of climate change in the United States.	39%	205
Oil and gas companies should pay for none of the costs of protecting communities from the impacts of climate change in the United States.	7%	33
Not sure	11%	62

OR10...Do you agree or disagree with the following statement: We are all responsible for climate change due to our daily actions, such as driving, flying, and heating our homes

Response	Percent	N
Strongly agree	45%	247
Somewhat agree	34%	188
Somewhat disagree	11%	58
Strongly disagree	10%	50

OR11...As you may know, research shows that oil and gas companies' pollution caused climate change, and the oil and gas industry lied to the public for decades about the impact of their pollution on the climate instead of taking steps to stop it. Cities and states are already spending money and developing innovative projects to protect themselves from the impacts of climate change, such as upgrading flood control systems, fortifying roads, bridges, and sewer infrastructure, and protecting drinking water.

Some say that because of this, oil and gas companies should pay at least some of the costs related to protecting communities from the impacts of climate change, including upgrading infrastructure in those communities. Others say that oil and gas companies have done nothing wrong and shouldn't be held financially liable for the effects of climate change, nor should they pay for individual community projects to upgrade infrastructure.

What do you think? Do you think oil and gas companies should pay for all, most, some, or none of the costs related to protecting communities from the impacts of climate change in the United States?

Response	Percent	N
Oil and gas companies should pay for all of the costs of protecting communities from the impacts of climate change in the United States.	15%	85
Oil and gas companies should pay for most of the costs of protecting communities from the impacts of climate change in the United States.	34%	190
Oil and gas companies should pay for some of the costs of protecting communities from the impacts of climate change in the United States.	35%	185
Oil and gas companies should pay for none of the costs of protecting communities from the impacts of climate change in the United States.	7%	35
Not sure	9%	48

OR12...Would you say that oil and gas companies are currently paying their fair share of costs related to the impacts of climate change in the United States, or not?

Response	Percent	N
No, they are not currently paying their fair share	78%	427
Yes, they are currently paying their fair share	22%	116

OR13...Do you support or oppose suing oil and gas companies to hold them accountable for their pollution and to pay for damages related to climate change?

Response	Percent	N
Strongly support	34%	186
Somewhat support	30%	164
Somewhat oppose	12%	65
Strongly oppose	13%	64
Not sure	11%	64

OR14...As you may know there are various ways elected officials in Oregon can take action to combat climate change. Below are two of those options. Which of the two options would you prefer your elected officials to focus on as a way to combat climate change?

Response	Percent	N
I would prefer my elected officials NOT focus on climate change	15%	77
I would prefer my elected officials pursue BOTH of these actions	36%	196
Regulatory actions like government rules or laws that limit carbon dioxide emissions or making businesses pay for their pollution	29%	162
Suing corporations in Oregon that are polluting the environment to hold them accountable for their pollution to pay for damages related to climate change	11%	59
Not sure	9%	49

OR15Ax1...How convincing do you find each of the following statements as reasons to hold oil and gas companies accountable for climate change and its associated impacts? - As early as the 1960s, oil and gas executives knew that their products caused climate change. But instead of adjusting course and leading the change to clean energy, oil and gas executives launched a multi-billion dollar, decades-long disinformation campaign to lie to the public, lawmakers, and the media about the impacts their products had on the climate, while they continued to pollute. Now, they're trying to avoid accountability. Big Oil knew, Big Oil lied, and Big Oil should pay.

Response	Percent	N
Very convincing	42%	107
Somewhat convincing	40%	104
Not too convincing	10%	26
Not at all convincing	7%	17

OR15Ax2...How convincing do you find each of the following statements as reasons to hold oil and gas companies accountable for climate change and its associated impacts? - Cities and states across the country are facing million - and in some cases, billion - dollar price tags to adapt to rising sea levels, climbing temperatures, and extreme storms. Taxpayers shouldn't be left holding the bag. Oil and gas executives knew fossil fuels caused climate change, and lied about it. They should pay to help clean up the mess.

Response	Percent	N
Very convincing	39%	99
Somewhat convincing	39%	102
Not too convincing	15%	37
Not at all convincing	7%	16

OR15Ax3...How convincing do you find each of the following statements as reasons to hold oil and gas companies accountable for climate change and its associated impacts? - You might not think you're feeling the impacts of climate change, but your wallet is. Thanks to climate change, you're already paying more on your utility bills and insurance premiums, and soon your taxes could go up to help pay for improvements to roads, bridges, and sewer systems. Oil and gas executives knew their products caused climate change and spent decades lying to the public. They should pay to help clean up the mess.

Response	Percent	N
Very convincing	42%	109
Somewhat convincing	36%	92
Not too convincing	17%	41
Not at all convincing	5%	12

OR15Ax4...How convincing do you find each of the following statements as reasons to hold oil and gas companies accountable for climate change and its associated impacts? - Now more than ever, keeping our families healthy is at the front of our minds. The Oregon Public Health Association called climate change "the greatest public health challenge of the 21st century," due to spiking asthma rates and heat-related hospitalizations. Oil and gas executives knew their products caused climate change and spent decades lying to the public, and now our families are paying the price. They need to be held accountable.

Response	Percent	N
Very convincing	41%	104
Somewhat convincing	32%	86
Not too convincing	17%	42
Not at all convincing	9%	22

OR15Bx1...How convincing do you find each of the following statements as reasons to hold oil and gas companies accountable for climate change and its associated impacts? - As early as the 1960s, corporate polluters knew that their products caused climate change. But instead of adjusting course and leading the change to clean energy, corporate polluters launched a multi-billion dollar, decades-long disinformation campaign to lie to the public, lawmakers, and the media about the impacts their products had on the climate, while they continued to pollute. Now, they're trying to avoid accountability. Big Oil knew, Big Oil lied, and Big Oil should pay.
